JOB CREATION AND ECONOMIC GROWTH

(Mr. THOMPSON of Pennsylvania asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. THOMPSON of Pennsylvania. The 112th Congress has a mandate from the people to focus their legislative efforts on job creation and economic growth.

Career and technical education should be at the forefront of those efforts. Expanding and improving our Nation's career and technical education is one of the most important and effective ways for our communities to produce a well-educated and skilled workforce, ensure that students are career- and college-ready, and individuals have the necessary skills to remain competitive in a changing workforce.

This year, I was named cochairman of the Career and Technical Education Caucus along with Representative LANGEVIN of Rhode Island. In the 112th, our goals are to enhance awareness in Congress of the importance of career and technical education and advance policies that improve skilled labor education and support technical-related small business job growth.

CTE programs exist in every congressional district, and I encourage my colleagues to join the bipartisan Congressional Career and Technical Education Caucus. Together, we can improve America's competitiveness and help facilitate job opportunities for our constituents.

CUTS TO RESEARCH, DEVELOPMENT AND STEM EDUCATION

(Ms. EDDIE BERNICE JOHNSON of Texas asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. EDDIE BERNICE JOHNSON of Texas. Mr. Speaker, I've come to the House this evening to talk about the deficit, but it's not our budgetary deficit, which is also a concern to many of us, but, rather, the deficit of vision that I see reflected in the CR that we will be voting on later this week. By that, I mean we have a CR before us this week that will do grave damage to our economic competitiveness while having a negligible impact on the Nation's budgetary situation.
